THE FIRST HALF OF THE YEAR 1939 has seen a fair number of real upsets in the local world of sport, Sensation No. 1 up to Monday, June 26, being the winning of the senior cricket shield in April by Club de Recreio, "babes" of the league, but the feat of South China Athletic Association's "A" tennis team in beating the Chinese Recreation Club in the senior league on Monday must have walked away with it every on Monday afternoon. year with a regularity that was becoming monotonous to other meritorious things done in local 1940 Games. sport for the past decade.

ONE HAS BUT TO look at the nmes of the C.R.C. side that was defeated to realise just, how creditable was South China's feat. Doing their hosts the honour of not underrating them, the Causeway Bay men turned out their strongest team-Tsui Wai-pui (singles champion and co-holder with his brother of the doubles title). W. C. Hung, Tsui Yun-pui (singles runner-up and co-holder with his brother of the doubles title), Paul Rong, Lee Yue-wing and Ho Ka-lau (doubles runnersup) all names with which local net fans are thoroughly familiar. On the other side, although all the players have figured in the local league for some years, only the names of Wang Wen-tsing and Szeto Bick are anything to conjure

BUT THESE TWO proved enough for the undoing of the champions, or, to be strictly fair, if invidious, Wang did. ## Arms From Canada For Britain

It is reported in Ottawa that the British War Office has work ed out a detailed programme for the spending of £12,000,000 in Canada for the purchase of arms and equipment.

This is an instalment of long-term plan to spend £50,000-000 in Canada in the development of a secondary source of arms supply and munitions for British defence forces.

It is suggested that the Dominion Government will establish? separate Munitions Department to co-ordinate the Canadian manufacture of war materials. Defence Needs

The Dominion National Defence Department has already conducted a survey of Canadian try to bring, about better production for Canadian and Imperial defence needs.

Last session the Dominion Parliament passed a bill to establish a Defence Purchasing Board, but this Act is still not proclaim ed and is not in force.

When proclaimed it will limit profits in non-competitive contracts to five per cent. of the employed in filling orders. British contracts are not affected.

#### U.S. WOMAN SENTENCED BY SOVIET

#### Entered Russia On False Passport

A 30-year-old American woman, Mrs. Ruth Marie Rubens, alias Robinson was sentenced to 18 months' imprisonment for entering Russia with her husband on a false passport in November, 1937.

As she had already been on remand for 18 months in an Ogpu prison, she will be released shortly. Curiously enough, the court did not make any expulsion order against her.

The case caused a sensation in America at" the time that the couple came under the notice of the Soviet authorities in December, 1937.

The husband disappeared first and nothing has been heart of him since.

His wife at first stated that he had been taken to hospital and had been put in an "iron lung."

The American authorities failed to establish Rubens as an American citizen and so could not help him.

His identity still remains a mystery, although American newspapers' described him at the time as a Left Wing journalist or Trotzkyist spy or both. -

Matters reached such a critical stage in official circles in Washington that there was talk of a break in diplomatic relations between the United States and Russia because the Soviet had not notified the United States of the

The Official Receiver asked that subpoensed witness, Lt. Col. H L. "Once that is established, it is only necessary for me to show that if the debter had presented the petition himself. he could not have succeeded because he could not have satisfied the Court that he was an howest man.

Two Issues

"Now, in these circumstances, will be apparent to your Lordship that certain matters referred to in my report will have no bearing upon the matters which your Lordship has to decide, and it will only be necessary, therefore, for your Lordship to consider those statements in my report which establish:-

"The creditor, Kwan King Shun. for example, agreed not to prove a debt of \$30,000 and, in fact, died without filing his proof, but his conduct of the debtor and at the executor proved for it on June 7, 1937, by which time the figure, on when your Lordship has had an which the 15 per cent. deposit was opportunity of considering the recalculated, had already been de- levant documents in these protermined on the basis that all ceedings. "This is not a matter of mere inference, because the debtor himself made an admission to me personally, on Dec. 20, 1937, that this was the object of Kwan in agreeing not to prove, and I am in a position to produce to your Lordship documentary evidence of this fact. 🚲

# SUGGESTION TO SEND UNITED FLEET TO FAR EASTERN WATERS TO

## POSSIBILITY OF MOVING THE FLEET TO HAWAII AND MANILA IS BEING DISCUSSED IN U.S. NAVAL CIRCLES

ENFORCE DEMOCRATIC RIGHTS

WASHINGTON, June 27 (Reuter)—The possibility of sending the United States Fleet to Far Eastern waters "to curb aggressive tendencies" is being discussed in-Washington, according to a commentator in the "Washington Star," who adds that with British and French sea-power pledged in Europe, the American ensign is the sole emblem of Democratic rights in Far Eastern waters as far as the ability to enforce these rights are concerned.

The writer suggests that consideration is being given to the possibility of repeating Theodore Roosevelt's despatch of the American Fleet round the world in 1907, with special attention to Japan.

#### CONCERN AT THE MOMENT

Political circles do not comment on the suggestion, though during the past periods of tension in the Far East, the possibility of moving the Fleet to Hawaii and Manile has been discussed in Naval circles.

Well-informed quarters declare that the Administration's paramount concern at the moment is to amend the neutrality statute and the Government therefore hope to avoid action which might prejudice the amendment's passage. Nevertheless, anyone will be ill-advised to try and take advantage of America's seeming occupation with domestic legislation.

WASHINGTON, June 27 (Reuter) -Mr. Cordell Hull, U.S. Secretary of State, when asked at a press conference whether the United States were considering taking action on broader lines in the Far East, replied that he had nothing in mind in that connexion.

Conditions in Swatow, he said, a change in Tokyo's policy. had become so much quieter that some of the United States marines who had been landed there had returned to their ship.

Mr. Johnston urged that something be done before the end of the session with the said bulk of goods lying in London and he wished the sale of those goods here might be stopped. Mr. Stanley promised to give early attention to the matter.

Moscow. According to the Soviet account, 25 of 60 Japanese planes, which

violated the frontier, were brought down by 60 Soviet and Mongolian planes, of which three are said to be missing: Japanese Version

The Japanese version says that By our guarantees to Poland 60 raiding Soviet and Mongolian planes were engaged by three Japanese aircraft, who shot down six of the enemy planes in a halfhour battle and then returned safely to their base.

Both sides claim that the aircraft of the other remaining in the air were driven off.

## FIERCE ENGAGEMENT REPORTED

KWANGTUNG. CHAOAN. (Central)—Bitter fighting is continuing at a number of strategic points around Swatow with the inflicting heavy Chinese casualties on the advancing Japanese, field despatches received here stated.

Following several days of fierce engagements, during which time the Japanese infantry were supported by warships and bombers, the Chinese withdrew their lines intact from Szechiwei to Tachao, northwest of Szechiwei, where fighting has been renewed.

JAPANESE CHECKED It is reliably stated that the Japanese drive on Ampow, seven miles north of Swatow, has been definitely checked and the Chinese are now in occupation of the town and Meichi strategic town northeast of Ampow. The invaders are reported to be retreating in confusion towards the south.

Another battle is raging at Tsaitang on the Swatow-Chaoan Railway where the Japanese have brought up heavy reinforcements and mechanized units. The Chinese have well-prepared defences there and are contesting every inch of the Japanese advance.

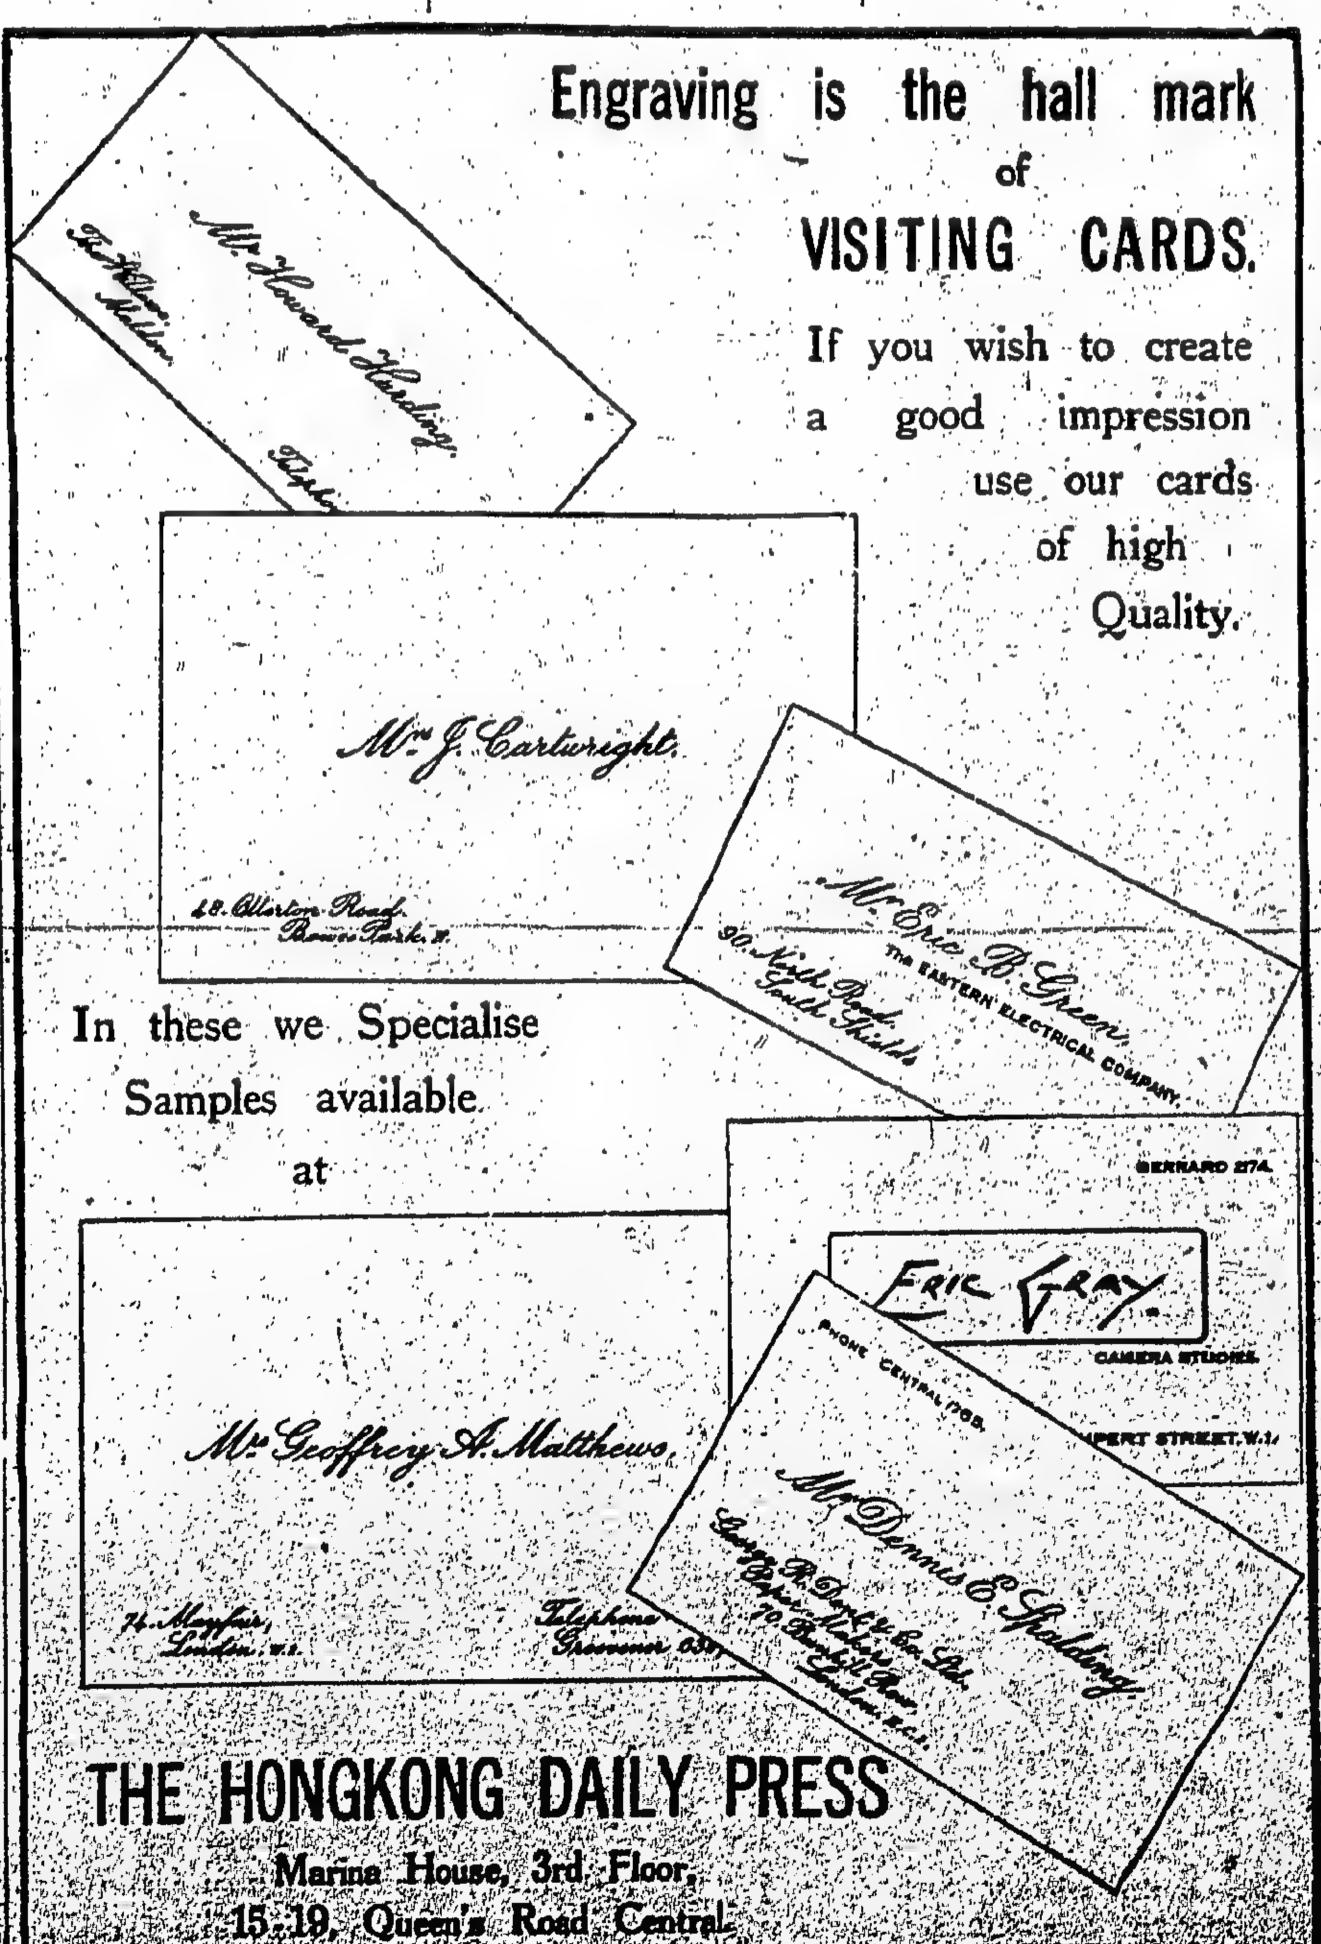

Fresh Chinese reinforcements are being brought up to the front north of Swatow where they have, formed a strong line with the forces at Amoy.

#### TINGHAL OCCUPATION AN UNDISCLOSED PLACE, EAST

KIANGSI, June 26 (Central)-In an interview, a military expert here stated that the Japanese occupation of Tinghai, the haien city on Chusan Island off the Cheklang coast, was designed to bolster the declining morale of the Japanese

The occupation, he said, has little military significance and is similar to the Swatow invasion, the blockade of the British Concession in Tientsin and the island of

The market opened 1/8 of a cent higher for "spot" Rubber, but with prices unchanged for forward deliveries as compared with Saturday's closing quotations.

Quiet, but steady conditions prevailed throughout the day despite the fact that the Rubber Exchanges in London and New York were closed on Saturday, last.

Fair buying orders for immediate delivery were in evidence, but it was difficult to satisfy this demand due to the tightness of the "spot" situation. In view of this fact consumers turned their attention to buying for forward deliveries, which, later in the session, fesulted in a slight price-advance of 1/8 cent for distant options.

There was also a fair trade-demand noticeable for more distant positions, but speculators preferred to await further developments in London and New York before entering into fresh commitments to any larger extent.

Closing tone was steady.

Rubber brokers in New York as well as in Singapore believe that, whilst the statistical position undoubtedly warrants higher prices, a sustained price-advance is primarily dependent upon political developments. Therefore, these circles think it advisable to pure ase on any recessions with a view to realizing profits, whenever they are apparent.

Prices were marked down at the opening to-day. This early decline was attributed to foreign selling. Later, the market ruled somewhat irregularly and prices moved both ways, but finally they took an upward course on good speculative buying and covering by short interests. Eventually, the market closed on the upside with prices very near to the day's best levels.

## WEEKLY RUBBER REPORT.

FINANCE

#### REYNOLUS & GIBSON PER PAYNE & COL

London.-Our market remained very steady most of the week with little change in quotations. There was, however, a slightly easier feeling yesterday due to London dealers' bids over the week-end having been accepted by the East and to some first hand selling.

The following are taken from the May issue of the I.R.R.C.'s

Statistical Bulletin:-April 1939 March 1939 April 1938 (adjusted) (adjusted) Tons Tons 87,235 World Shipments 71,041 World Absorption ..... 567,791 World Stocks & Affoat ...... 403,824 Shipments for May from the customary centres of production January 49.084 7,123 D.E.I. Estate: met, tons 7.010 11.014 8,949 Outer Possessions ... 13,910 18.024 D.E.I. Native: Outer Possessions ...

It is interesting to note as regards Malaya that although a domestic cut in production of 21 per cent, as a deduction from the I.R.R.C. percentage quota, is in operation, this has not succeeded in reducing last year's carryover of over 11,000 tons which together with excess shipments during Jan./May this year now amounts to about 14,000 tons. With respect to the D.E.I. for the first five months of the year, estates have under-shipped to the extent of about 2,500 tons while native producers have over-shipped about 6,000 tons.

The Malayan Information Agency publishes the following

stock figures:-Stocks-Dealers 12,270 tons 15,669 tons Singapore (Outside regulated area) ... Penang (Outside regulated area) ...... 2,302 tons " 1,942 tons 14,572 tons 17,611 tons Province Wellesley, etc. (Inside regulated area) ...... 1,768 tons 1,853 tons 16,340 tons 19,464 tons Stock-Port, etc. 3,338 tons 4.936 tons Singapore (Outside regulated area) 1,355 tons 1,496 tons Periang (Outside regulated area) ...... 6,302 tons: 4,834 tons

Estimates of May consumption in the U.S.A. vary between 44,000 and 47,000 tons.

We see no reason to change our view that a higher range of values should be attained providing the political situation permits." trade to pursue a more normal course.

Movements of Rubber in London and Liverpool for week ending June 10,"1939:---

Landed Delivered same time -last year 58,005 tons 1,284 tons 943 tons 43,625 tons 

New York.—There has been slightly more movement in this market than London. Only moderate factory interest has been shown, although the underlying sentiment has been friendly to the market with estimates for May/June U.S. consumption above expectations and the view that consumption may still further improve.

## Germans Who Will Not Leave Colony

PETITIONING TO GOVERNOR

Three refugees, described as German subjects, who had been expelled from the Colony at the beginning of this month, appeared again before Mr. R. Edwards at the Cen-Court yesterday charged with entering the Colony without a valid passport on June.

They were Alfred Aufang, Rudolf Israel Kuttner and his wife Alice Sara Kuttmer.

Aufang objected to the interpreter, saying that from experiences before the Court former occasions, he learned, he said, that refugees would not help one another and would do harm whenever they could. His reason, for entering the Colony was because military operations had commenced at Swatow.

Aufang was remanded to 11 a.m. to-day when the question of an interpreter will be settled. Rudolf Kuttner told the Court that his passport was valld until 1940, but he admitted he had no visa for Hongkong.
